SUMMER RESCUE TIP

Summer sun, combined with environmental pollution and daily wear can take a real toll on your hair. It is a great idea to replenish all the moisture and nutrients that are leached from your hair by applying a deep conditioner once a week. It is our pleasure to recommend a treatment personalized for your hair by just stopping in the salon. Treatments are easy and can be done at home with a professional product. Or, it is always our pleasure to provide a Deep Conditioning/Reconstructing service in the salon.
